**Page Load Error - Mozilla Firefox**

File Edit View History Bookmarks Tools Help

Google Search

**Secure Connection Failed**

webmel.perak.gov.my uses an invalid security certificate. The certificate is not trusted because the issuer's certificate is not trusted. The certificate is only valid for mbs1.perak.gov.my.

(Error code: sec\_error\_unknown\_issuer)

- This could be a problem with the server's certificate chain trying to impersonate the server.
- If you have connected to this server successfully in the past, this error may be temporary, and you can try again later.

### 2. Add exception

### Secure Connection Failed

webmel.perak.gov.my uses an invalid security certificate.

The certificate is not trusted because the issuer certificate is unknown.  
The certificate is only valid for mbs1.perak.gov.my

(Error code: sec\_error\_unknown\_issuer)

- This could be a problem with the server's configuration, or it could be someone trying to impersonate the server.
- If you have connected to this server successfully in the past, the error may be temporary, and you can try again later.

You should not add an exception if you are using an internet connection that you do not control completely or if you are not used to seeing a warning for this server.

Get me out of here!

Add Exception...

### 3. Get Certificate
